

<b>Title</b>	<b>Page Number</b>
<b>Cover</b>	
<b>Editorial Board</b>	
<b>Table of Contents</b>	
<b>Engineering Section</b>	
An Experimental Study for Enhancing the Performance of the Photovoltaic Module Using Forced Air	1-9
Friction Spot Joining of Aluminium Alloy AA 5052 to Pre-Holed Steel AISI 1006 by Extrusion of Aluminium into a Rivet Head Die	10-20
<b>Medical Techniques Section</b>	
Evaluation of Preoperative CA15-3 Level and its Relationship with Clinico-Pathological Characteristics in Primary Breast Cancer Patients	21-26
Effect of Optiglaze Color on Wear Resistance of Heat Cure Acrylic Prosthesis	27-31
Estimate Zinc-Oxide Particles on PMMA Mechanical Properties	32-37
The Effect of Gram Negative Bacteria on Semen Parameters of a Sample of Infertile Men and Antibiotic Susceptibility Tests	38-44
The effects of TiO <sub>2</sub> Nanoparticles on Flexural Strength of Self-Polymerized Resins: In Vitro Study	45-49
Possible Roles of Micro RNA-142-5p and Claudin-1 in Development of Hashimoto's Thyroiditis in Iraqi Patients	50-55
The Renal and Liver Complications Development among Patients with Type 2 Diabetes Mellitus in Kirkuk City	56-61
The Influencing Effect of Silver Nitrate Fillers on the hardness of Flexible Resin	62-68
The Effects of HLA-G Gene Polymorphism and sHLA-G Level in Women with Threatened Abortion	69-74
<b>Applied Arts Section</b>	
Reduction and Its Formal Connotations in the Design of Interior Space Furniture	75-85
Transformations of Display Techniques in Contemporary Ceramics	86-100
